SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

37-AA-0923

12. Description of Facility:

550 West Aviation Road, Fallbrook, County of San Diego, California 92028
Section 24, Township 9 South, Range 4 West, SBBM.

13. Findings:

- a) A County-wide Integrated Waste Management Plan was approved by the CIWMB on June 25, 1997. Pursuant to Public Resources Code (PRC) §50001(b), this facility is not required to comply with PRC 50001. This solid waste facility is not a disposal site nor a facility which is designed to, and which as a condition of its permit, recover for reuse or recycling at least 5 percent of the total volume of material received as described in PRC §50001(a) paragraphs (1) and (2).
- b) This permit is consistent with standards adopted by the California Integrated Waste Management Board (CIWMB). Public Resources Code, § 44010.
- c) The LEA has determined that the design of the facility would allow for the facility operations to be conducted in compliance with the State Minimum Standards for Solid Waste Handling and Disposal, based on a review of the November 1996 Report of Station Information as amended January 1998 and an inspection conducted on March 31, 1998.
- d) The LEA has reviewed and considered the information, including the environmental effects of issuing this Solid Waste Permit, contained in the Negative Declaration approved by the County of San Diego dated November 22, 1996, and an addendum to the previously adopted Negative Declaration dated January 12, 1998, and finds that there are no significant unmitigatable environmental effects arising out of the issuance of this Solid Waste Facility Permit.

14. Prohibitions:

The permittee is prohibited from accepting any liquid waste sludge, non-hazardous waste requiring special handling, designated waste, hazardous waste, biohazardous waste, waste containing more than 50% water, friable and non-friable asbestos, large dead animals, and radioactive wastes.

15. In addition to the terms of this SWFP, the following documents describe and restrict the operation of this facility:

	Date		Date

		Addendum to previously adopted Negative Declaration P96-015, Log #96-1-2	<u>1-12-98</u>

16. LEA Conditions:

- a) The operator shall maintain a copy of the permit, Report of Station Information and State Minimum Standards for Transfer/Processing Station at the site at all times.
- b) No significant change in design or operation of this facility shall be taken without prior application to and approval by the LEA (Public Resources Code § 44004).
- c) If the proposed dust control systems fail to be adequate for the control of dust in the operations of the facility, the LEA may require additional mitigation measures be installed.
- d) The operator shall maintain, and keep current, records of weight and types of waste received per day. These records shall include the final disposition of transferred waste and recycled materials (San Diego County Code of Regulatory Ordinances § 65.107).
- e) The operator shall maintain, and keep current, a record of all vehicles hauling waste to the facility.
- f) Stored recyclables shall not interfere with facility operations or cause a public health nuisance as determined by the LEA. The LEA reserves the right to reduce the maximum storage time of recyclables necessary to protect health or prevent a nuisance.
- g) Additional information regarding the design and operation of this facility must be provided to the LEA upon request.
